

Part 1: Self-Evaluation

I am Nicholas Garrett

My responsibilities during this sprint were to assemble the backend for board.

I would say I got an A-

I would estimate that I completed about 19% of the work, though the work I did do was most of the backend programming to build the server.

Yes, I did complete my tasks.

I was incredibly involved

Part 2 - Team Member Evaluation

For each other team member complete the following:

Daniel Igbokwe:

Part 3 - Team Use of Scrum and Essence

- Briefly describe how your team has been utilizing Scrum and the Essence concepts

The scrum master and team used principles of product backlog to keep track of what items to complete.

- Describe any issues the team is having following these approaches

We currently are having some difficulties in determining how long the backlog items will take to complete.

- Describe any methods your team has adopted to improve

I do not think we adopted any methods during this sprint.
