Part 1: Self-Evaluation

I am Nicholas Garrett

This Sprint, I was the Scrum Master

I would say I got an A

I would estimate that I completed about 21% of the work, though the work I did do was most of the backend programming to build the server.

Yes, I did complete my tasks, as I was on the sub-team building the backend.

I was incredibly involved

Part 2 - Team Member Evaluation

For each other team member complete the following:

Daniel Igbokwe:

Grade: A

Percentage of work completed: 25%

This person was incredibly involved

Timothy Lybek:

Grade: A

Percentage of work completed: %18

This person was incredibly involved

Austin Mietchen: Product Owner

Grade: A

Percentage of work completed: 19%

This person was incredibly involved

Joshua Wheeler:

Grade: A

Percentage of work completed: 18%

This person was incredibly involved

Part 3 - Team Use of Scrum and Essence

- Briefly describe how your team has been utilizing Scrum and the Essence concepts

  The scrum master and team tried to used the games to determine what needed to get done, and what their priorities were.

- Describe any issues the team is having following these approaches

  This early-in on the project, we have difficulty knowing what we can realistically do in a sprint, so it is just a matter of adapting.

- Describe any methods your team has adopted to improve

  We are trying to improve our system of documentation. It is a bit difficult to remember each time we push to the repository, but we are trying to figure it out.
